Skills

Backend

Ruby on rails | Rspec

Frontend

React | HTML | CSS | Bootstrap | Ajax | Jquery

Tools

GitHub | Scrum | Jira | Zoho | Continuous Integration And Continuous Delivery (CI/Cd) | Docker

Databases

Postgres | Mysql | MongoDB

Cloud

AWS | Google Cloud Platform (GCP) | Heroku

Professional Experience

2022/03 – 2024/12 Indore, India	**Software Developer** *Cyber Infrastructure Private ltd* • Successfully developed and managed an efficient admin site for front-end control. • Mentored and supervised a team of 3 junior developers to ensure the timely and quality completion of tasks. • We have proactively created new features using Ruby on Rails to improve functionality of projects like Market Dojo, Aura and enhancing the overall user experience. • Demonstrated excellent problem-solving skills in efficiently resolving bugs and technical issues. Overall, my contributions played a significant role in the project's success, highlighting my expertise in technical development and team management.
2021/03 – 2022/06 Thiruvananthpuram, India	**Software Developer** *Techversant Infotech Private LTD* • Led the successful conversion of the old UI to the new UI for a project, resulting in an improved user experience and enhanced functionality. • Played a key role in client management, directly interacting with them to ensure the project (Pureloan, Puresalary) met their expectations and requirements while leveraging Ruby on Rails,Docker and Google Cloud Platform (GCP) to build robust backend solutions and deliver seamless user experiences. • Collaborated with junior team members, providing guidance and support • throughout the project to ensure timely and efficient completion. Managed scrum calls to track the project's progress and status, ensuring effective communication and coordination among team members. My experience in UI conversion, client management, team collaboration, and project coordination has equipped me with essential skills that can benefit any organization.

2019/03 – 2020/06 Indore, Indore	**Jr. Software Developer** *AppsImpact* • Developed authentication systems from scratch using the Ruby on Rails stack, which included building the Rails stack and integrating it with admin features for seamless functionality. Employed version control tools such as GIT and code • storage tools like Git-Hub to enhance the system's capabilities and streamline code management. Successfully implemented the Ruby on Rails stack with • authentication systems for enhanced security and user access control. Collaborated with team members to ensure the authentication systems met the • project requirements and were delivered on time. My experience in building authentication systems from scratch, utilizing the Ruby on Rails stack, and leveraging version control tools and code storage tools has enabled me to develop robust and secure systems that meet client needs.

Projects

2022/06 – 2023/12	**Market Dojo(Esker)** Market Dojo is a software company that provides procurement software solutions for businesses and organizations. Their software is designed to help automate and streamline procurement processes, ultimately leading to cost savings and improved efficiency. This Platform allows buyers to create and manage tenders, while suppliers can easily submit their bids online. It also enables real-time bidding between suppliers, driving down costs and increasing competition.
2022/03 – 2022/06	**Aura** AuraTracker is a free online platform designed to track the spread of COVID-19 in real-time across various countries and regions globally. The website uses data from official sources, such as the World Health Organization (WHO) and Centers for Disease Control and Prevention (CDC), to provide up-to-date information on COVID-19 cases, deaths, recoveries, and active cases. AuraTracker also offers additional features such as COVID-19 news updates and a COVID-19 risk calculator that estimates the likelihood of contracting the virus based on an individual's location and behavior. The platform is intended to serve as a tool for individuals, policymakers, and health professionals to monitor the spread of COVID-19 and make informed decisions related to public health and safety.
2021/10 – 2022/03	**Puresalary** Pureloan offers personalized mortgage rate quotes and connects users with licensed loan officers who can help guide them through the loan application process. Users can compare mortgage rates and loan terms from multiple lenders and apply for a mortgage online.
