# AMNA IHSAN

+447538947275 | amnaihsan049@gmail.com | Coventry Dear Hiring manager,

I am writing to express my interest in the Entry Level Front-End Developer position at your organization. With a Master's degree in Mathematics and a passion for programming, I have developed a strong foundation in HTML, CSS, PHP, React and JavaScript and, which I am eager to apply in a professional environment. Through self-study and hands-on experience with personal projects, I have developed a solid understanding of Responsive Web Design, and the importance of creating user-friendly accessible websites.

I believe I am right fit for this role because my background in mathematics has helped me develop strong problem-solving skills and attention to detail, which I use to write clean and effective code. While I have some experience with React, I am still learning and keen to improve my skills in React.

I am excited about the chance to bring my skills and passion for Front-End Development. I am confident that my background in mathematics and my hands-on experience with HTML, CSS, JavaScript and GitHub make me a strong fit for your organization. Thank you from considering my application. I would welcome the opportunity to discuss how my skills align with the needs of your organization and how I can contribute to your team's success. I look forward to the possibility of speaking with you soon.

Link to my projects are provided in the CV. Sincerely,

Amna Ihsan
