RECENT EMPLOYMENT HISTORY

Frontend Engineer – Ijeawe Investment – FCT, Abuja

September 2024 – Present

Spearheaded the development of a responsive and intuitive hire purchase web application using React.js, leveraging expertise in frontend engineering to deliver seamless user experiences.

Key Achievements:

- 25% boost in user engagement: Designed and implemented a responsive UI, significantly enhancing user interaction and reducing bounce rates by 30%.
- 40% reduction in application completion time: Streamlined the application process through efficient frontend development, ensuring a seamless user journey.
- 90% user satisfaction rate: Conducted thorough user research and testing to inform design decisions, resulting in an exceptional user experience.

Technical Highlights:

- Developed a scalable and maintainable frontend architecture using React.js
- Utilized modern frontend frameworks and libraries to ensure a responsive and interactive UI
- Collaborated with cross-functional teams to ensure a cohesive user experience
