## MERN Stack Developer

Rawalpindi 46000

[drsaeed071@gmail.com](mailto:drsaeed071@gmail.com)

+923000188367

I am a MERN Stack Developer with 4+ years of experience having a strong proficiency in HTML, CSS, JavaScript, TypeScript, React.js, Redux/Context, Next.js, Node.js, Express.js, MongoDB, MySQL, and REST APIs. I have a proven track record of delivering responsive web applications, optimizing user experiences, and efficiently managing state and data. I am adept at collaborating with clients to meet project requirements and deadlines while upholding code quality and best practices. I have freelance expertise gained on Fiverr and Upwork.

## Work Experience

---

### MERN Stack Developer

Fiverr/Upwork-Remote

January 2019 to Present

Freelance MERN Stack Developer (Fiverr & Upwork)

As a Freelance MERN Stack Developer on Fiverr and Upwork, I leveraged a diverse skill set in HTML, CSS, JavaScript, TypeScript, React.js, Redux/Context, Next.js, Node.js, Express.js, MongoDB, MySQL, and REST APIs to deliver exceptional web development solutions. During this freelance tenure, I:

- Designed and developed responsive web applications that prioritized user experience and performance.
- Employed HTML, CSS, and JavaScript to create engaging front-end interfaces, ensuring seamless user interactions.
- Utilized React.js and related technologies to build dynamic and interactive web components.
- Managed complex application states efficiently using Redux/Context for improved user experience.
- Developed robust server-side logic with Node.js and Express.js to handle API requests and data processing.
- Leveraged NoSQL (MongoDB) and SQL (MySQL) databases to store and retrieve data efficiently.
- Designed and implemented RESTful APIs, enabling seamless data communication between front-end and back-end components.
- Upheld code quality, maintainability, and scalability by adhering to best practices and conducting testing.
- Collaborated effectively with clients, understanding their unique project requirements, and delivering tailored solutions.
- Met project deadlines consistently and worked independently to ensure client satisfaction.

My experience as a Freelance MERN Stack Developer on Fiverr and Upwork has honed my ability to deliver high-quality web development solutions while adapting to various client needs

### MERN Stack Developer

Uplio-New York

January 2023 to April 2023

I excelled as a MERN Stack developer at a New York based dynamic company named Uplio, where I led the development of an impressive ecommerce web app.

Leveraging my expertise in Node.js, Express, React, and MongoDB, I architected seamless back-end solutions and user-friendly front-end interfaces. Collaborating with multidisciplinary teams, I transformed business needs into scalable technical implementations, optimizing performance, security, and user experience. My contributions empowered the company to deliver a competitive ecommerce solution, and my departure marked the end of a successful chapter marked by innovation and achievement.

## Senior MERN Stack Developer

Paalam Consultancy Limited-Macclesfield

January 2022 to April 2022

I worked at Paalam as a Senior MERN Stack Developer. I worked in developing ecommerce web apps there and developed whole frontend pixel perfect according to figma designs in react js, redux and scss. I also developed some REST APIs in Node js and MongoDB there.

## Node js developer

Alterwis-Switzerland

June 2021 to September 2021

During my tenure at Alterwis, a Switzerland-based company, I had the privilege of working remotely as part of a dynamic team, where I played a pivotal role in developing the backend REST APIs. My responsibilities included crafting robust and scalable solutions using cutting-edge technologies such as Node.js, Express.js, and MongoDB.

This experience allowed me to not only contribute to the success of Alterwis but also gain valuable insights into international collaboration and remote work practices. I thrived in this environment, leveraging my technical expertise to design APIs that seamlessly integrated with Alterwis' online platform, enabling smooth and efficient online professional consultations.

My dedication to delivering high-quality code and my ability to work independently while remaining a collaborative team player contributed significantly to the project's success. Working with Alterwis broadened my horizons and further honed my skills in backend development, reinforcing my commitment to producing outstanding results in remote work settings.

## Education

---

### Bachelor's in Science

University of the Punjab - Lahore

March 2020 to March 2022

## Skills

---

- HTML
- CSS
- SCSS
- JavaScript
- TypeScript
- React js
- Redux / Context
- Next js
- Node js
- Express js
- MongoDB
- MySQL
- REST API
- Communication skills
- Leadership

- HTML5
- Front-end development (6 years)
- Back-end development (5 years)

## Certifications and Licenses

---

**Frontend Developer**

**MERN Stack Developer**

**React js Developer**

**HTML, CSS, JavaScript Developer**
